SPECIAL IMPORT BULB PRICES

FOR SEASON
1907

VAUGHAN'S SEED STORE

84-86 Randolph Street, CHICAGO
14 Barclay Street, NEW YORK
Greenhouses and Nurseries, Western Springs, Ill.

TO GROWERS OF
FORCING BULBS, AZALEAS
 and Like Imported Stock.

Some advantages we claim in caring
 for your orders.

FIRST EARLY SHIPMENTS.

We import by fast steamer one-fourth of our Roman Hyacinths, Freesias and Paper Whites needed for Thanksgiving and Christmas trade. By doing this we put those kinds of bulbs in your hands two weeks earlier than if you wait for your entire order from Holland and France.

All bulbs bought of us will be A No. 1 on delivery and if not satisfactory then, in every way, may be returned or exchanged.

We invite the most critical inspection on arrival and customers are not expected to keep or use any that are not as represented herewith.

We ship no plants or bulbs in original cases without inspection at New York or Chicago.

If any of our stocks open up poorly on arrival we can replace them with satisfactory stock within five days, at original prices. Rejected stock from Europe cannot be replaced under six weeks, or must be repurchased here at advanced prices and delays.

LILIUM HARRISII,

We are strictly headquarters for these, controlling some of the best bulbs in Bermuda. The packing and shipping will be supervised by our own traveler.

We ship from Chicago or New York.

Our Rule--"All Florists' Stock in Season."

Double Von Sion TRUE DUTCH.

It is a well known fact that there is only one section in Holland where these bulbs can be grown properly, and we provide for all of our stock in this section, contracting for the output of one large grower. In this way we secure the pick of the crop, and can supply bulbs that will be equal to, or better than those delivered by any other dealer. Our double nose bulbs are especially fine, and will throw from two to three first-class flowers, especially recommended for growing in pans.

NARCISSUS PAPER WHITE GRANDIFLORA.

In placing our contracts with French growers we are careful to secure the largest bulbs that are obtainable and the grade of these which we offer under the name of "Star Brand" is the choicest stock to be had in France, and we are only able to obtain each year a limited number of them. Our experience has been that they are well worth the difference in price over the smaller grades. However, the quality which we offer under the heading "Fancy" is a selected grade from the general stock.

AZALEA INDICA.

These Plants come packed 25, 50 and 100 in a case.

READY IN OCTOBER.

Our arrangements with the Belgian nurserymen are for the best plants which the season can produce—well-shaped heads, well budded—believing that with Azalea as with Valley, "the best is always the cheapest."

Orders for these plants are specially packed in Belgium and are inspected and watered by us on arrival both in New York and Chicago. This extra care insures our customers receiving their plants in the best possible condition.

The following varieties are what we consider the finest sorts for commercial purposes or private conservatories. We can, however, import for our customers any special kinds they may wish.

WHITE CALLA. (CALLA ÆTHIOPICA.)

The Calla is one of the most profitable and easily grown bulbs a Florist can buy, and we take great pains in securing every year bulbs which are well ripened and cured, securing our stock from growers in California who thoroughly understand the raising, curing and shipping of these bulbs. We have arranged again this year for a large amount of bulbs, but would advise early ordering by our customers in order to be sure of their supply, especially of the larger sizes.

LILIUM LONGIFLORUM.

JAPAN GROWN.

Our Japan growers are instructed to avoid early digging and give us only ripened bulbs such as should with reasonable care give good results when forced under glass. While we cannot make any guarantee as to the result of forcing Lily Bulbs our Japan growers understand this stock as well as any exporters from that country.

MULTIFLORUM TYPE.

The true variety under this name will produce more flowers per bulb than other types, but it is difficult to secure true stock of this unmixed with other grades. Our Japan growers promise that our stock shall contain 80 per cent true type.

INDISPENSIBLE FOR EARLY FORCING.

We secure our entire supply of these bulbs from one concern, who for the past few years have been working up a stock of what we consider to be the old original Liliium Harrisii. In addition to this we will supervise the packing and shipping of the crop through our own representative, thus insuring careful grading and preventing mixture of Longiflorum and other objectionable types.

Under these conditions we ask your orders for the best selected true Harrisii that can be obtained from Bermuda.

This has been very satisfactorily and profitably forced by several customers the past season. It comes free from disease, even, and pays.

It is known to most growers of this Lily that there are two strains, The flowers of each show in substance a marked difference. The better one shows a wider flower, with petals much more firm and greater substance. We import at a much larger cost the true "Thick Petaeled" bulbs and they have given our customers excellent satisfaction. We offer it as the best and most substantial type of Liliium Candidum.

VAUGHAN'S SEASONABLE SUPPLIES FOR FLORISTS

FERTILIZERS.

Prices on Fertilizers are net cash.

VAUGHAN'S "ROSE-GROWER" BONE MEAL

This is a special brand we have put up for our trade. It is ground fine, hence acts quickly. It is made from bone accumulated in large slaughter houses, and should not be compared with Bone Meal made from cattle heads and feet gathered on the western prairies. Our "Rose Grower" Bone has been slightly steamed to soften it so it can be ground fine, and is thus quicker in its action. A finely ground bone can also be more evenly distributed through the soil. Analysis.—Ammonia, $4\frac{1}{2}$ to $5\frac{1}{2}$ per cent; total phosphoric acid, 22 to 25 per cent; total bone phosphate, 48 to 54 per cent.
